General Details

Alexa is really freakin hot: curvy, sensual, easy to talk to about anything, and was very dedicated to satisfaction. If you like curvy, full figured, BBW women, Alexa is the lady for you.

I was visiting the area for business and saw her ad on eros and knew i had to spend some time with her. Screening was easy and i booked 2 hours. Was glad we did a longer session, she's gorgeous and very kinky and i loved getting to play with her. She looks hot in her pictures but she's even hotter in person!! VIPs read on

The Juicy Details

I visited her at her incall in Providence In a very nice neighborhood, the space is charming and clean. Her place and her are both creative, relaxing, and pleasant. She greeted me at the door, a very pretty face and captivating eyes, i was already hooked and half hard before we even got started!

Her pictures are beautiful but they're nothing in comparison to the real deal! She immediately came over to me and we started some very sensual DFK, it felt like she knew me for years. She undressed me and we moved to the bed. She slowly removed her bra and I was immediately at attention from her amazing tits. I spent time admiring them which she enjoyed with some loud moans- she is very vocal. She has a spectacular, round ass, I couldn't keep my hands off it. I couldn't wait any longer and we moved to the bed where she gave me an excellent BBBJ. No CIM but her amazing tits were the perfect spot for my first shot. After recovering from round 1, I wanted to taste her and damn is she sweet! I made her cum multiple times and I was more than happy to keep giving her pleasure. At that pont I was ready for some kinky fun and I confessed to wanting her to be dominant and take over. and she was more than happy to provide. We made it to the big finale and let me tell you, this lady is a star. She's quite flexible and can go forever. I'll never forget this one. Alexa is curvy, passionate, and absolutely sexy, I will definitely see her again.
