General Details

Alexa is a great provider. She is sweet, and jumps right into the action. She makes you feel comfortable and relaxed, and never looked at the time during any of my sessions. If you want a BBW with a sensual touch and a desire to please, look no further.

TER members, read on, I have a lot more to say about her below.

The Juicy Details

I always see her on outcall. I book a nice room and wait for her to arrive. She knocks gently on the door, and I answer to a stunningly beautiful woman. As great as her pictures on her site are, she looks even better in person. She comes into the room and I am already hard. She chats for a small while, then changes into something sexy. You can request an outfit, or have her surprise you. Last time, I had her where a cute skirt and a g string so I could touch her butt, which is perfect in every way.

Every sessions starts with passionate kissing, which quickly turns into deep French kissing. Then I would remove her bra, and play with her massive and perfect breasts, fondling them briefly then going to her nipples to lick and suck on them while she makes the sexiest moans. While this happens, she begins to suck on my fingers as I reach my other hand to her pussy. After a while, I begin to eat her out, which she loves. After she cums, I ask for a lap dance, which she is happy to provide. She begins to rub her amazing ass against me, and it feels incredible. After a while she gets down and gives me the best BBBJ I have ever been able to cum from one before, but she gets me every time. It's always the kind of orgasm where it feels so good that your legs are shaking and knees get weak, and you can't function for a minute because you are so focus on how good you feel.

We return to the bed, where we kiss and caress each other. I give her breast some more attention, then she places a condom on me and rides me. She seems to have endless energy when riding, and all the while, I am either kissing her, playing with her breasts, and simply enjoying the view of a beautiful woman on top of me while I grab her perfect ass. I bring her to the edge of the bed, and begin to fuck her while she lays on her back. I love seeing the way her breasts and tummy bounce with each thrust. We switch over to doggy style, which she seems to like the most. I don't last much longer, it was a combination of high tight she felt, how sexy her ass looked as I grabbed it, and how vocal she was while I fucking her that way.

I'm completely drained after 2 shots, yet she stays for the rest of the time. I asked her to cuddle and she was happy to oblige. All the while, I was holding her butt, we gently kissed and she ran her fingers through my hair. I felt so at peace and relaxed, I almost feel asleep in her arms. I let her use my shower afterwords while I lay back and think about the wonderful time I had. The only thing keeping me from giving her a 10 on performance is that she won't do anal, which she made clear to me our first session.

Show this lovely lady the respect she deserves, she will rock your world with absolute pleasure and passion. If you are on the fence, just go see her! I will be seeing her as often as I can.
