General Details

Alexa is a truly wonderful young lady who aims to provide a fantastic experience and definitely succeeds. My time with her was fun, sensual, relaxing, and very hot. She is one of the best new escorts I've seen on the Boston/Providence scene in a long time. Highly recommended.

The Juicy Details

Alexa was kind enough to visit me in Boston, after I fell in love with the pictures on her website. She arrived at the hotel dressed very discreetly, but there is no downplaying her stunning blue eyes and soft pink hair which looks divine on her. Once we shared a couple of glasses of sparkling wine in the room, the kissing began and Alexa is indeed an expert. DFK is very important to me and I cannot recommend Alexa enough on this score.

Once Alexa got changed into something more comfortable and sexy, we moved to the bed. The kissing continued, but we also took our time exploring each other's bodies. Alexa's touch is sensual and her soft curves enchanted me, as did the tattoos which make her body a work of art. She provided an excellent BJ, and I spent plenty of time playing with her large and beautiful breasts. As we kissed, I felt how soft and wet she was, and decided it was time to engage this young lady in a passionate session. She started out on top of me, and wasn't remarkably flexible and sprited. I then asked to get on top so that we could kiss a sexy I pumped into her. The finish was remarkable. Sexually, Alexa is a very giving lover and always made me feel both comfortable and wanted. She went out of her way to please me and made sure I was worn out by the passion.

Anyone looking for a great experience with a young, intelligent, and kind lady who is very good at her job should contact Alexa right away. Highly recommended!!
